# Section III: Action Plan Goals

List the top two health & wellness goals your school focused on this year.

| Goals   | Implementation<br>Activities   | Successes   | Challenges   | Resources Used   |
|---|--|---|--|--|
| Example: Ensure all<br>food & beverages<br>offered outside of<br>school meals program<br>meet USDA Smart<br>Snacks in school<br>nutrition standards | School wellness<br>committee created an<br>approved list of snacks<br>and beverages. The<br>principal shared the<br>policy and approved list<br>of items with school<br>staff, parents, and<br>community stakeholders<br>to reinforce the policy | After 6-months of<br>reinforcing the school<br>policy and continuously<br>sharing the approved<br>list of items the goal<br>was achieved. | Explaining to parents<br>why only items on the<br>approved list were<br>permitted in the school. | <ul> <li>Local school wellness<br/>policy</li> <li>HG Smart snack<br/>calculator to identify<br/>approved snacks and<br/>beverages</li> <li>Newsletter and social<br/>media to spread the<br/>message</li> </ul> |

| 1. Ensure all foods and<br>beverages served daily<br>for breakfast and lunch<br>meet or exceed the<br>USDA regulations for<br>the National School<br>Lunch and School<br>Breakfast programs. | The Child Nutrition<br>office planed the<br>breakfast and lunch<br>menus before the school<br>year started. As the<br>school year progressed<br>the Operation Specialist<br>adjusted the menu on a<br>monthly basis as<br>necessary.                                      | Each week of the<br>breakfast and lunch<br>menus were in<br>compliance with the<br>USDA regulations for<br>National School Lunch<br>and School Breakfast<br>programs. | -Occasional food<br>shortages and<br>substitutions on weekly<br>orders.  | -Health-e Meal Planner<br>Pro                                  |
|--|---|---|--|--|
| 2. Encourage students to<br>increase their daily fruit<br>and vegetable intake.  | Between breakfast and<br>lunch students are<br>offered both hot & cold<br>vegetables, 100% fruit<br>juice, cut fruit and<br>whole fresh fruit are<br>served to students daily.<br>The cafeteria has<br>signage to encourage<br>students to take fruits<br>and vegetables. | With student exposure<br>and verbal<br>encouragement all<br>students that purchase<br>breakfast or lunch take<br>at least one fruit or<br>vegetable.                  | <ul> <li>-Cooked vegetables<br/>offered at school have a<br/>different (low sodium)<br/>taste than those offered<br/>to students outside of<br/>school.</li> <li>-Students are at an age<br/>where they are often<br/>losing/missing teeth, so<br/>some fruits and<br/>vegetables are more<br/>difficult for them to eat.</li> </ul> | -MyPlate<br>-One Terrific Tray<br>-Breakfast and Lunch<br>Menu |

# Section IV: Wellness Policy Recommendations

This is space for your school to make recommendations for suggested wellness policy revisions for the district wellness council to consider.
